Assignment-5

1. Write a menu driven program in C which will perform the following operations on Linked List
- i) add a node at the end of the list(for empty list it will be first node of the list)
- ii) no. of nodes present in the list
- iii) add a new node at the beginning of the list
- iv) add a new node after the specified no. of nodes(e.g. add node after say 5th node)
- v) display the contents of the list
